

IGSN - SYMPOSIUM

Monday, May 6th 2019 • 15.00 (3 pm)

FNO – 01 / 117

Psychophysics in Humans and Optogenetics in Mice

15:00

MICHAEL HERZOG

Laboratory of Psychophysics, Brain Mind Institute, EPFL, Lausanne, Switzerland

Crowding, Patterns & the Fundamentals of Vision

16:00

THOMAS KNÖPFEL

Optogenetics and Circuit Neurosciences, Department of Medicine, Imperial College London, UK

Light-based electrophysiology

17:00

Coffee break

17:15

CHENCHEN SONG

Laboratory for Neuronal Circuit Dynamics, Department of Medicine, Imperial College London, UK

Cortical signatures of somatosensory processing

Host:

DIRK JANCKE

Optical Imaging Group, Institute for Neural Computation, Ruhr University Bochum

Guests are welcome!
