

IGSN - SYMPOSIUM

Monday, May 22nd 2017 • 15.00 (3 pm)

FNO – 01 / 117

The intriguing signaling triad: tPA, LRP1 and NMDA

15:00 **DENNIS VIVIEN**
Serine Proteases and Pathophysiology of the Neurovascular Unit , University of Caen,
France

**The tissue type Plasminogen Activator (tPA), more than a
fibrinolytic?**

16:00 **PETRA MAY**
Clinic for Gastroenterology, Hepatology and Infectiology, University of Düsseldorf,
Germany

**Modulation of NMDA receptor signaling by LDL receptor-
related proteins**

17:00 Coffee break

17:15 **JAKOB VON ENGELHARDT**
Institute of Pathophysiology, Johannes Gutenberg University of Mainz, Germany

NMDA receptors in the healthy and diseased brain

Host:

EWA BRES

Department of Cell Morphology and Molecular Neurobiology, Faculty of Biology and
Biotechnology, Ruhr University Bochum

Guests are welcome!
