

IGSN - SYMPOSIUM

Monday, February 1st 2016 • 15.00 (3 pm)

FNO – 01 / 117

Road to cognition: From sensory integration to pathway information

15:00

STEFAN M. BRUDZYNSKI

Department of Psychology / Biological Science,
Brock University, St. Catharines, Ontario, Canada

**Brain systems of emotional arousal and emotional
expression: studies of ultrasonic vocalizations**

16:00

ETIENNE SAVE

Laboratory of Cognitive Neuroscience,
Aix-Marseille University, CNRS, Marseille, France

**Navigation by path integration: the role of the
entorhinal cortex**

17:00

Coffee break

17:15

MICHAEL HASSELMO

Center for Systems Neuroscience, Boston University, MA, USA

Neural coding of space and time in entorhinal cortex

Hosts:

BIRTE DIETZ, NIKOLAS KALWEIT, MARKUS LORKOWSKI
Department of Neurophysiology, Faculty of Medicine, Ruhr University Bochum

Guests are welcome!
