

# IGSN - SYMPOSIUM

Monday, October 6<sup>th</sup> 2014 • 15.00 (3 pm)

FNO – 01 / 117

## The effect of environmental enrichment on hippocampal physiology and memory function

**15:00 Abdul H. MOHAMMED**

Karoliska Institute Alzheimer Disease Research Center, Stockholm, Sweden

**Experience-dependent Plasticity: from Flies to Philosophers**

**16:00 Thomas FOSTER**

Department of Neuroscience, McKnight Brain Institute, University of Florida, Gainesville, FL, USA

**Effect of environmental enrichment on the aging hippocampus**

17:00 coffee break

**17:15 Nicoletta BERARDI**

Department of Neuroscience, Psychology, Drug Research, Child Health (NEUROFARBA), Florence University, Florence / Institute of Neuroscience, National Research Council, Pisa, Italy

**Environmental enrichment and brain plasticity**

**Host:**

Motoharu YOSHIDA,  
Mercator Research Group "Structure of Memory", Ruhr University Bochum

**Guests are welcome!**
