

# IGSN - SYMPOSIUM

Monday, September 27<sup>th</sup> • 15.00 (3 pm)

FNO – 01 / 117

## Relationship of synaptic plasticity to information and memory processing"

15:00

**Zafar BASHIR**

Department of Anatomy, MRC Centre for Synaptic Plasticity,  
University of Bristol, UK

**Synaptic plasticity -  
from mechanisms to roles in learning and memory**

16:00

**Dimitri KULLMANN**

Institute of Neurology, University College London, UK

**Synaptic plasticity and information processing  
in the cortical interneuron circuit**

17:00

coffee break

17:15

**Gaël MALLERET**

CNRS - Department of Sleep and Memory Research  
University Claude Bernard, Lyon, France

**Memory inhibitory constraints: a positive role in cognition?**

**Host:**

Denise Manahan-Vaughan  
Department of Experimental Neurophysiology, Ruhr-University Bochum
