

IGSN - SYMPOSIUM

Monday, October 11th • 15.00 (3 pm)

FNO – 01 / 117

Encoding of sensory modalities

15:00

Jordi GUIMERA

Institute of Developmental Genetics, Technical University Munich, Germany

Deciphering the molecular cues controlling the generation of the midbrain GABAergic neurons

16:00

Volker SCHEUSS

MPI of Neurobiology, Martinsried, Germany

Dendritic spines and cortical circuit wiring, function and plasticity

17:00

coffee break

17:15

Mark HÜBENER

MPI of Neurobiology, Martinsried, Germany

Imaging structural and functional plasticity in mouse visual cortex

Host:

Denise Manahan-Vaughan
Department of Neurophysiology, Ruhr-University Bochum

Guests are welcome!
