

IGSN - SYMPOSIUM

Monday, December 13th • 15.00 (3 pm)

FNO – 01 / 117

In vivo whole-cell recording and/or cellular imaging of cognition and synaptic function in rodents

15:00

Georg KELLER

Dep. of Cellular and Systems Neurobiology,
Max Planck Institute, Martinsried, Germany

Visual processing in awake behaving mice

16:00

coffee break

16:15

Jérôme EPSZTEIN

INMED-INSERM U901, Parc Scientifique et
Technologique de Luminy, Marseille, France

**Whole-cell recordings of place cell activity
in freely moving rats**

Host:

Denise Manahan-Vaughan
Department of Neurophysiology, Ruhr-University Bochum
