

IGSN - SYMPOSIUM

Monday, January 16th • 15.00 (3 pm)

FNO – 01 / 117

Neurophysiology of reaching

15:00

Hansjörg SCHERBERGER

RG Neurobiology, German Primate Center, University of Göttingen, Germany

Hand grasping signals in the primate brain

16:00

Alexandra BATTAGLIA-MAYER

Department of Physiology and Pharmacology,
Sapienza - University of Rome, Italy

Online control of hand trajectory in the parietofrontal system

17:00

coffee break

17:15

Melanie WILKE

Dept. of Cognitive Neurology, University Medicine Göttingen (UMG), Germany

Thalamo-cortical interactions in reaching and eye movement behavior: combined fMRI and inactivation studies in monkeys

Hosts:

Ramakrishnan Sureshbabu / Klaus-Peter Hoffmann

Neurobiology, Faculty of Biology and Biotechnology, Ruhr-University Bochum

Guests are welcome!

**International Graduate School
of Neuroscience**
Ruhr-University Bochum
