

IGSN - SYMPOSIUM

Monday, July 8th 2013 • 15.00 (3 pm)

FNO – 01 / 117

Impacts of thyroid hormone on the development of the nervous system

15:00

Dagmar FÜHRER-SAKEL

Clinic for Endocrinology, University Hospital Essen, Germany

Consequences of thyroid disease in pregnancy for the offspring - a clinical perspective

16:00

Thomas VOIGT

Institute for Physiology, University Magdeburg, Germany

Regulation of early spontaneous network activity and GABAergic neurons development by thyroid hormone

17:00

coffee break

17:15

Nori KOIBUCHI

Department of Integrative Physiology,
Gunma University Graduate School of Medicine, Gunma, Japan

Thyroid hormone and cerebellar development

Host:

Irmgard DIETZEL-MEYER,

Department of Molecular Neurochemistry,
Faculty of Chemistry and Biochemistry, Ruhr-University Bochum

Guests are welcome!

**International Graduate School
of Neuroscience**
Ruhr-University Bochum
