

IGSN - SYMPOSIUM

Monday, May 2nd • 15.00 (3 pm)

FNO – 01 / 117

Sensory processing and its plasticity in the barrel cortex

15:00

Kevin FOX

School of Biosciences University of Cardiff, UK

**Anatomical and molecular pathways for plasticity
in the barrel cortex**

16:00

Carl PETERSEN

Laboratory of Sensory Processing, Brain Mind Institute,
University of Lausanne (EPFL), Switzerland

Synaptic mechanisms of sensory perception

17:00

coffee break

17:15

Cornelius SCHWARZ

Werner Reichardt Center for Integrative Neuroscience,
Hertie Institute for Clinical Brain Research, University of Tuebingen, Germany

Action and perception in the rat whisker system

Host:

Klaus Funke

Department of Neurophysiology, Ruhr-University Bochum

Guests are welcome!
